

YEAR OF THE OX

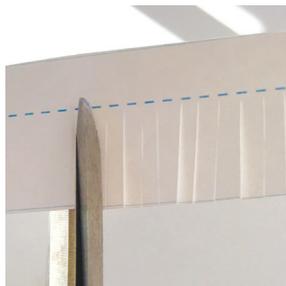

BOOK CORNER

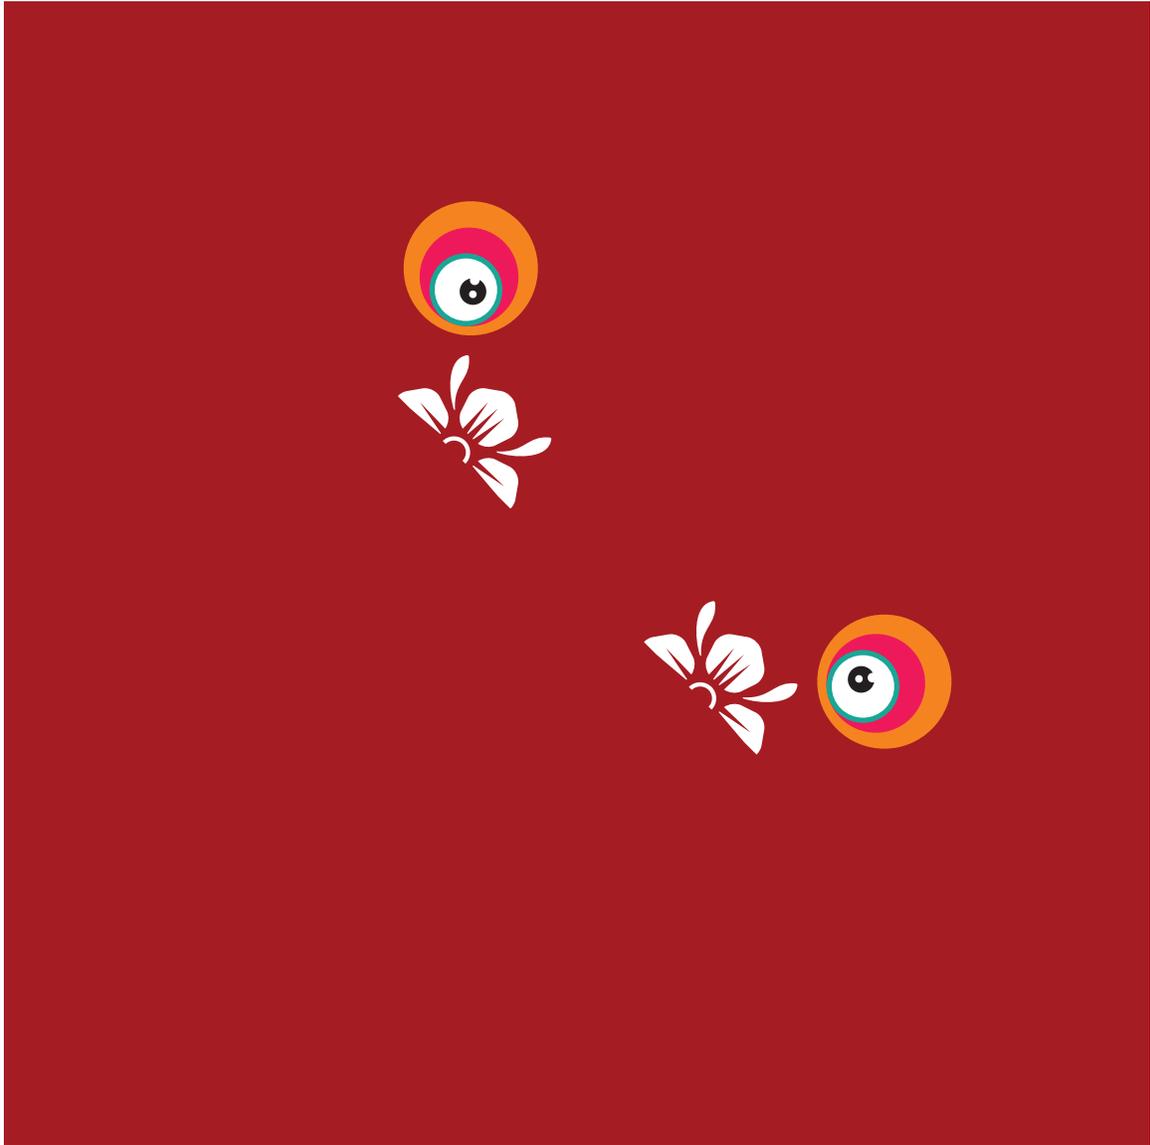

SUPPLIES

- Printed and cut-out origami square
- Printed and cut-out ox features
- Printed and cut-out tassel strips
- 2 - 3 inch pieces of yarn or thin ribbon
- 2 - 2 inch pieces of yarn or thin ribbon
- Glue
- Glue stick
- Scissors

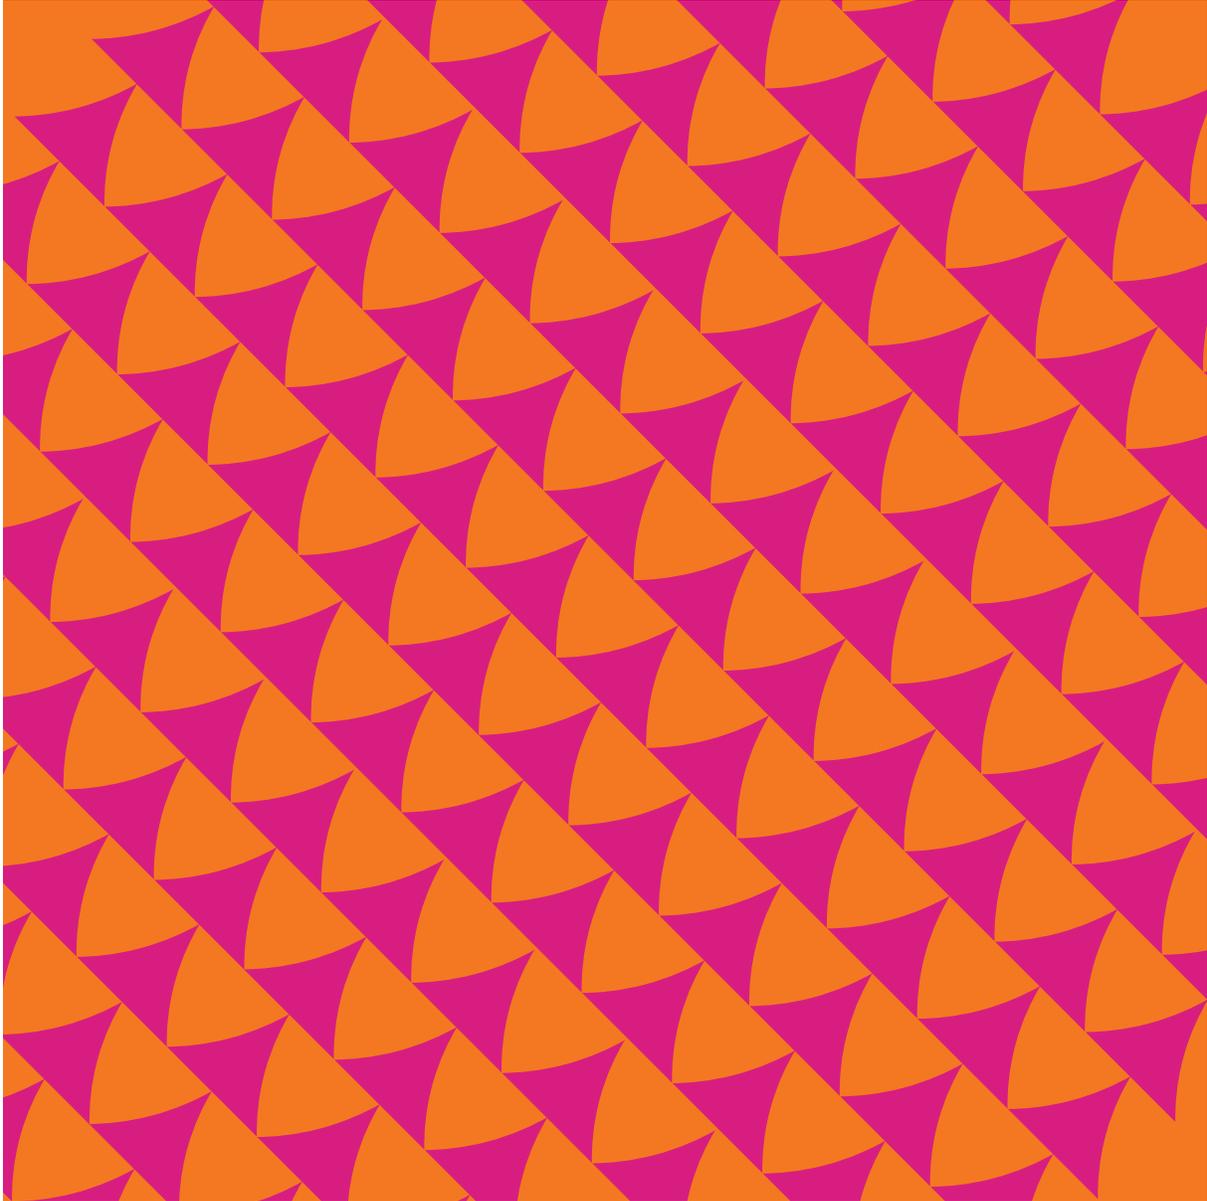

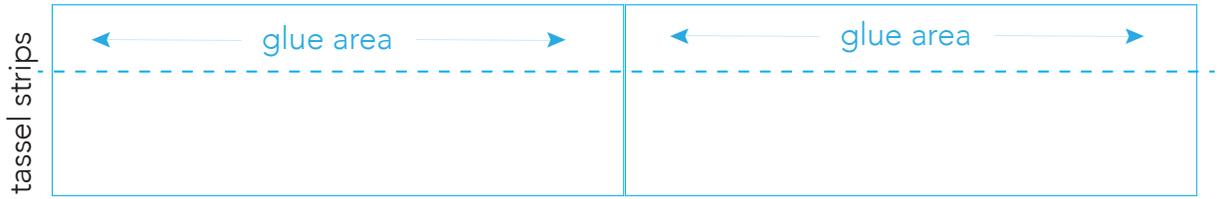

DIRECTIONS

1. Print front square, flip paper and print back on same page.
2. Cut out red square from the printed page.
3. Fold origami bookmark using photo guide or video link.
4. Cut out nose, ears, head flower, nose ring, horns, and tassel strips.
5. Clip tassel strips as shown in photo.
6. Glue nose beneath eyes, making sure not to glue the pocket beneath. Glue the nose ring to the nostrils.
7. Gently pinch each ear on the tip and glue to the back side of the head.
8. Glue the horns slightly above the ears.
9. Glue the head flower over the printed flower
10. Make the tassels by putting a dot of glue on the left and right, unclipped edge of each strip. Place the tip of a 3-inch piece of yarn or thin ribbon in the glue with the remaining length going up and away from the unclipped edge. Repeat for the second strip. Tightly roll each strip lengthwise. Pinch for a few seconds to allow the glue to take hold. Put a dot of glue on the top/unclipped part of the tassel and wrap with another 2-inch piece of yarn/ribbon. Glue the end and repeat for the second tassel. Tie the tassels together at the top and glue the knot to the back side, center of the head.
